## PROJECTS

### PREDICTING MOVIE SUCCESS

PYTHON, PANDAS, MATPLOTLIB, DATA SCIENCE, BEAUTIFULSOUP

Apr 2019 – Dec 2019

Analysing different attributes on which a movie's rating depends and building a model to predict movie ratings. Dataset was extracted from various sources using BeautifulSoup

### ROOM BOOKING SYSTEM

JAVA, MYSQL | GITHUB LINK

Nov 2018 – Dec 2018

An application designed to manage and book various rooms at college for organizing events. Contains three different level of users

### WAIT OR WATCH – TV SERIES REMINDER

PYTHON, BEAUTIFULSOUP | GITHUB LINK

Oct 2018

A CLI script which reminds users the release date of the next episode of your favorite TV Series. I used the BeautifulSoup library in python to scrap information from IMDb and send it through email.

### LIBROMATE – A BOOK SHARING APP

PHP, MYSQL, HTML, CSS, JS | GITHUB LINK

Jan 2018 – Apr 2018

A Web Portal where readers can borrow, lend and share books with ease. Was appreciated a lot by the faculties and peers
